A recent visitor was warmly welcomed (I think!). One of our customers is snake breeder and kindly bought in one of his rare Albino snakes for me to hold (having never done it before!)

She is only 12 months old and already about 2 foot long and when fully grown, will be up to 16 foot!

'Nicola with her friend!'

As we are all so busy it is so hard to get away from the office to sort your screen printing needs...don't worry! I can come to you - part of our customer satisfaction plan is to have a dedicated day (every Tuesday) for client catch up and to sort t your screen printers needs.
